Announcement

Peter A. Jumars (School of Oceanography WB-10, University of Washington, Seattle 98195) will become Editor of LIMNOLOGY AND OCEANOGRAPHY at the June meeting of ASLO in Rhode Island.

Until 1 June 1986, all correspondence should be sent to me as usual. After that date everything should be addressed to Dr. Jumars, except for correspondence concerning material already in press or to be included in the November issue. I will finish the editorial work on Volume 31 of the journal (1986); the November issue is sent to press at the end of July.
