Erratum: Major bacterial contribution to the ocean reservoir of detrital organic carbon and nitrogen

This paper, published in L&O 53(1): 99–112, contains these errors:

- In the abstract, the second sentence should read “The origins and yields of biomarkers were determined in cultured marine bacteria, and the results indicated that D-amino acids are derived from numerous macromolecules in addition to peptidoglycan.”
- In Table 2, the footnote cited in the 3rd line from the bottom (Coastal Atlantic 1[†]) is missing. The missing

footnote is “[†]Experiment is described by Kawasaki and Benner 2006.”

- In Table 2, row Acidovorax, column D-Glx, the value (3.9) should be 39.9.

The conclusions of the manuscript are unaffected by these errors.
